## **DETAILED ACTION**

### ***Election/Restrictions***

1. Newly submitted claim 17 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: new claim 17 is drawn toward a pair of burners for injecting pulverized coal into a combustion vessel.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 17 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

### ***Drawings***

1. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on 9 June 2003 have been disapproved because they introduce new matter into the drawings. 37 CFR 1.121(f) states that no amendment may introduce new matter into the disclosure of an application. The original disclosure does not support the showing of a means for moving the one branch entry relative to the reference axis or the travel property changing means being operable to move the one branch entry.

### ***Specification***

2. The amendment filed on 9 June 2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall

introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

- The amendment to page 9, after line 11, constitutes new matter added to the disclosure.
- The amendment to page 30, after line 2, constitutes new matter added to the disclosure.
- Newly added figure 27 introduces new matter into the disclosure.

The new matter, relating to a means for moving the one branch entry and travel property-changing means being operable to move the one branch entry, was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 6, 7, 8-16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. As claimed in claims 6 & 7, the means for moving the one branch entry is not described in the specification. As claimed in claim 8, the travel property changing means being operable to move the one branch entry is not described in the specification. The specification is absent of discussion of a means for moving the one branch entry and travel property changing

Art Unit: 3651

means being operable to move the one branch entry, or the structural equivalents thereof supporting the means plus function language used in the claims.

***Allowable Subject Matter***

5. Claims 6-8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

6. Claims 9-16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard Ridley whose telephone number is (703) 306-5910. The examiner can normally be reached on Mon-Thur 7:00 am - 5:15 pm.
